

Contra Sept® 5180 Surface Disinfectant Cleaner

Surface disinfectant for all washable items and surfaces. The highly efficient formulation disinfects, cleans and protects glass, plastic and metal surfaces.

Effective against Corona SARS-CoV-2

- ✓ confirmed through EUROVIR® hygiene laboratory (a recognized expert for the Robert Koch Institute)

Properties

- ✓ Proven effectiveness against the coronavirus SARS-CoV-2
- ✓ Effective against other enveloped viruses (e.g. bovine virus diarrhea (BVDV) and vaccinia virus)
- ✓ Disinfects, cleans, protects
- ✓ Good material compatibility

Application area

- ✓ For large-area disinfection and cleaning

Instructions

Pour the desired amount of surface disinfectant into a suitable application device or use a spray attachment. Apply undiluted to the surface, wipe and leave to work for at least 5 minutes. Ensure complete wetting and keep the surface moist during the entire application time. Application maximum 50 ml/m². Ensure that all visible soiling is removed before disinfection. After complete flashing-off (approx. 15 minutes) no further wiping is required. The product is effective against enveloped viruses (such as corona viruses) after an exposure time of only 2 minutes. The product is effective against bacteria after an exposure time of 5 minutes.

Notice

- ✓ Not suitable for use on the skin. Use biocides carefully. Always read the label and product information before use. Only return the packaging to the waste collection when completely empty.
