

Human Technology® 901 Liquid Grease Flow

High-quality synthetic active liquid grease with PTFE. Excellent creep and lubricating effect and outstanding corrosion protection. Ideal long-term care for all moving, metallic parts.

Human Technology®:

- ✓ Certified by NSF*
- ✓ No toxicologically relevant designation
- ✓ Solvent free
- ✓ Does not contain nerve-damaging n-hexane
- ✓ Free of any allergy-inducing fragrances and colourings
- ✓ *NSF International, The Public Health and Safety Company™

Properties

- ✓ Very good anti-corrosion protection and wear protection through use of a calcium-complex formula
- ✓ Reduces friction also under extreme conditions, through use of PTFE
- ✓ Very good creeping properties
- ✓ Stable at temperatures from -40°C to +200°C
- ✓ Does not gum up and does not stick

Application area

- ✓ Long-term lubrication for all moving components (e.g. door brakes, seat rails, joints, hinges, sliding parts, studs, door striker, locking cylinders, locks, rods etc.)
- ✓ Drastically reduced danger to the health through use of Human Technology®. Therefore particularly suitable for use in vehicle interiors.
- ✓ As part of the TUNAP service package „Pflege spüren“

Instructions

Refer to the product information before use. Shake well before use. Spray parts to be maintained.

Notice

- ✓ If the product is to be used in the food-processing industry, only the minimum quantity that is technically necessary may be used.
- ✓ If the product is to be used as an anti-corrosive film, it must be completely removed before the device in question is used again.
