

microflex® 978 Combustion Chamber Cleaner

Removes fuel-related deposits from the combustion chamber and piston crowns. The cleaning chemical thereby reduces the risk of the engine being damaged by misfire (LSPI). Suitable for all (ethanol) petrol mixtures.

Properties

- ✓ Removes fuel-related deposits from the combustion chamber and piston crowns
- ✓ Reduces the risk of the engine being damaged by LSPI
- ✓ Suitable for use by the end customer

Application area

- ✓ Direct injection petrol engines prone to LSPI (Low Speed Pre-Ignition)

Instructions

Regularly add to the fuel tank. Use the filler neck to do so. Sufficient for up to 60 l of fuel (min. 10 l of fuel).
